CLIENT	Vanessa Roberts
PROBLEM	Experiencing lagging when streaming 4K videos due to insufficient internet speed.
BUDGET	33

MEETING OVERVIEW

The purpose of the meeting was to address Vanessa Roberts' concerns regarding her internet speed, particularly when streaming 4K videos. The call successfully identified her current issues and proposed a suitable fiber plan to enhance her internet experience.

DISCUSSION

During the call, Vanessa expressed dissatisfaction with her current internet speed, particularly when streaming 4K content, which resulted in lagging. The representative, Candice, explained the necessary speed for 4K streaming and conducted a speed test that confirmed Vanessa's current download speed was insufficient. Candice then presented a fiber plan that offered significantly higher speeds at a competitive price, addressing Vanessa's budget concerns. After discussing the plan details, Vanessa agreed to consider the offer and requested a follow-up call to finalize the decision.

CONFORMANCE ASSESSMENT

The discovery process was largely complete, with most critical areas addressed, including the client's problem, solution needs, budget, and next steps. However, there were some gaps in understanding the current systems and platforms.

CRITICAL GAPS

The discussion lacked depth regarding the current internet setup and specific systems in use, which could provide better context for the proposed solution.
